#### Give your weaners the advantage of being NAIT compliant

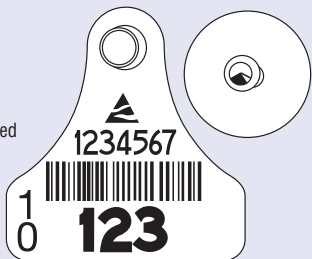

- NAIT compliant calves don't require official retagging in the future
- Full NAIT compliant packs start at \$3.98 plus gst/freight per animal, based on FDX Low Cost Economy pack (valid 1st January 2011)
- NAIT compliant weaners will be more attractive to buyers!

#### FDX Low Cost Economy Pack (LaserPlus marking)

**All tags are yellow**

- Male tags are blank
- Complies with the AHB requirement.
- Allows full movement of all stock when tagged as indicated from farm to farm etc.
- Allows animals to go to sale or the works.

Primary - medium/button

Secondary - button/button

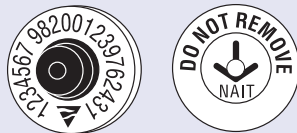

Qty required  Year code (if required)

Start No. (if required)

Range (ie 1-100 etc.)

#### Traka Tag

- Allows movement to slaughter after 1st November 2011.
- Eliminates the need to match with the existing primary tag.

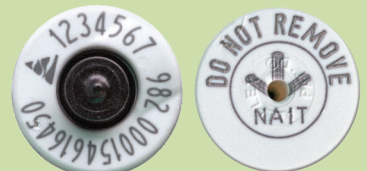

Qty required

HDX - high performance

FDX - low cost

#### Traka Tag Convenient NAIT compliance of weaners and older existing cattle

- Ideal way to comply older existing breeding stock
- Gives you the flexibility to apply the device as the animal moves to slaughter (after 1st Nov 2011)
- No prior matching to the primary tag required

#### NAIT compliant tag for existing stock (older animal)

## DIRECT TO SLAUGHTER TAGS

QUANTITY REQUIRED

OFFICIAL MARKING All markings on the Slaughter tag are determined by the Animal Health Board. Available in Yellow only.

Caution: This is a new order form that reflects changes to the AHB scheme and the Official ordering website. Only animals born after 1 March 2011 can use the NAIT device as a optional Primary, animals born before 1 March 2011 can use either the HDX or FDX Economy packs. All animals moving to slaughter before 1/11/2011 require a Bar-coded tag.
