

SHEEP NUTS

RELIANCE SHEEP NUTS are designed to supplement pasture, particularly in times of low pasture growth and/or poor pasture quality.

RELIANCE SHEEP NUTS CONTAIN:

- Quality ingredients in a 10mm nut to ensure optimum utilisation and reduced wastage.
- High levels of digestible energy and metabolisable energy (ME) compared with other supplements such as forages.
- Highly digestible ingredients for late pregnancy when feed intake is limited.
- Molasses for increased palatability.
- A wide range of essential vitamins, minerals and trace elements for flock health and production. This includes vitamins A, D and E, as well as trace elements such as zinc, selenium, iodine, cobalt and manganese.

Reliance feeds are part of our quality assurance programme and are quality tested to meet their stated specifications.

FEEDING RECOMMENDATIONS

ALL SHEEP: Typical feeding rate is 150g/head/day

Optimum feeding rates depend on pasture availability and quality and the age and condition of the sheep. The nuts can be fed at higher levels if required.

Transition onto RELIANCE SHEEP NUTS by starting with 50g/head/day for a week before building up to 150g/head/day over the following 1 to 2 weeks.

Ensure an adequate amount of forage is available at all times.

Ensure sheep have access to clean drinking water at all times.

Contains nutritional levels of cobalt, iodine, copper, manganese, zinc and selenium as well as vitamins A, D and E. If supplementing these trace elements in other ways (pasture, drench or injection), please consult with the Farmlands Nutrition team or your veterinarian.

To discuss the optimum feeding levels and diet for your flock, please call the Farmlands Nutrition team on 0800 200 600.

TYPICAL ANALYSIS (DM Basis)

Energy	12.2 MJ/kgDM
Protein	12.2%
Fat (minimum)	2%
Fibre (maximum)	8%
Selenium	1mg/kg

The Metabolisable Energy (ME) values are calculated by a registered laboratory from an equation and are not an actual measured value. Therefore they are only a guide for predicting the energy content of a feed.

INGREDIENTS SELECTED FROM

Barley, Wheat, Palm Kernel Meal, Wheat By-products, Grass seed meal, Soyabean Meal, Canola, Linseed, Maize, triticale, Oats, Peas, Molasses, Sodium Bentonite, Minerals, Vitamins, Trace Elements, Vegetable Oil
