

CATTLE Paddock NUTS

RELIANCE CATTLE Paddock NUTS are a cost effective feed for cattle for use in summer and autumn where pasture quality and/or quantity may be limiting, or for putting weight on dry cows.

RELIANCE CATTLE Paddock NUTS CONTAIN:

- Quality ingredients in nut form to increase digestibility, as well as reducing wastage and dust.
- Molasses to increase palatability.
- A blend of carbohydrates, oils and protein that is designed to complement pasture
- Higher starch and lower Neutral Detergent Fibre than Palm Kernel. This helps to reduce the overall diet NDF during summer when pasture levels are high.
- A wide range of minerals and trace elements which are important for production and fertility. This includes trace elements such as zinc, copper, selenium, iodine, cobalt and manganese.

Reliance feeds are part of Farmlands quality assurance program and are quality tested to meet their stated specifications. Reliance dairy pellets are made to order and are delivered fresh on-farm.

TYPICAL ANALYSIS (DM Basis)

Energy	12.5MJ ME/kgDM
Crude Protein	12%
Starch and Sugar	>40%
NDF	<25%

The Metabolisable Energy (ME) values are calculated by a registered laboratory from an equation and are not an actual measured value. Therefore they are only a guide for predicting the energy content of a feed.

RECOMMENDED FEEDING RATES

Typical feeding rates are 2-4kg/head/day.

If cows have not had grain or pellets previously then transition onto RELIANCE CATTLE Paddock NUTS with 0.5kg/head/day for a week before building up to 2kg/head/day over the next one to two weeks.

Feed out in a long line or in many small piles to reduce the risk of gorging.

Ensure stock don't go hungry on to paddock nuts by providing fibre (hay, balage, silage or straw) first.

To discuss the optimum feeding levels and diet for your herd please call CRT's nutrition team on 0800 278 583.

ADDITIVES AVAILABLE

Additional additives can be added to Reliance Dairy feed upon request to tailor the feed to individual farm requirements.

- Magnesium Oxide (Reduce the need for dusting)
- Limeflour
- Bovatec/Rumensin
- Biotin
- Mycotoxin Binder
- Organic minerals

INGREDIENTS SELECTED FROM

Barley, Wheat, Palm Kernel, Soya, Peas, Canola, Oats, Maize, Grass-seed Meal, Molasses, Minerals

RELIANCE CATTLE Paddock NUTS contains up to 20% Palm Kernel Meal
