

GOAT PERFORMANCE

RELIANCE GOAT PERFORMANCE is a mineralised grain-based pellet developed to deliver targeted nutrition for the goat herd, which have unique nutritional requirements that may not be fully met when offered feed targeted at different species.

RELIANCE GOAT PERFORMANCE can be used to improve milk production in dairy goats, and also increase the number of multiple births and weight gains in meat goats.

RELIANCE GOAT PERFORMANCE CONTAINS:

- Quality ingredients pelleted to decrease wastage and reduce selection
- Starch from a range of grains and peas to support rumen fermentation and milk production
- A combination of rumen degradable and rumen bypass protein
- Essential trace elements including copper, zinc and iodine
- Effective levels of key minerals – calcium, magnesium, phosphorous and sodium
- Added by-pass fat for extra energy without rumen disruption
- Vitamins A, D and E to help support fertility, well-being and performance
- Palatable ingredients that are low in fibre for increased feed intake

Reliance feeds are part of our quality assurance program and are quality tested to meet their stated specifications.

FEEDING RECOMMENDATIONS

Typical feeding rates are 0.5kg/head/day for adult does and bucks. As with any new feeds, RELIANCE GOAT PERFORMANCE PELLETS should be introduced gradually, particularly if goats are unaccustomed to starch based feeds.

Depending on the level of milk production and pasture quality and/or quantity, this daily feeding rate may be increased.

Additional minerals may be required depending on the pasture composition and animal performance.

To discuss the optimum feeding levels and diet for your animals please call the nutrition team on 0800 278 583

TYPICAL ANALYSIS (DM Basis)

Energy	12.7 MJME/kgDM
Crude Protein	19%
Fat (minimum)	2.5%
Selenium	1 mg/kg
NDF	<15%

The Metabolisable Energy (ME) values are calculated by a registered laboratory from an equation and are not an actual measured value. Therefore they are only a guide for predicting the energy content of a feed.

INGREDIENTS SELECTED FROM

Wheat, Barley, Peas, Soya bean Meal, Cottonseed Meal, Molasses, Limestone, Dicalcium phosphate, Magnesium Oxide, Salt, Sodium Bentonite, Minerals, Trace-elements and Vitamins

RELIANCE GOAT PERFORMANCE contains no Palm Kernel
