This brochure shows photography of actual Clever Living Co. homes that have been built for clients. The photographs are indicative only as these homes were finished to meet individual clients' preferences and may differ to the standard finishes and internal fixtures outlined in this brochure. Artist renders featured in the brochure are also indicative only. All building materials and inclusions are subject to change and maybe substituted prior to order confirmation. Resource consents, building consents and necessary planning permission are still required to be eligible for a Code Compliance Certificate.

THE FULL PACKAGE

When you build a healthy home with Clever Living Co., you get the complete package. From safety glass to smart lighting to heat pumps, you get an innovative range of materials and accessories.

LONGRUN ROOFING

- Longrun pre-coated metal roofing iron includes soffit, barge & head flashings, netting and underlay
- High quality repainted steel sheet backed by 15 year minimum durability warranty
- Rivets, fixing and fasteners included
- Manufactured specifically for use in New Zealand in accordance with standards AS 1397:2011 and NZ/AS 2728:2019

ALUMINIUM JOINERY

- Thermally broken aluminium joinery helps to prevent heat loss and condensation
- Toughed safety glass on both sides
- Argon gas filled glass panel
- Low E glass which reflects UV light, keeping the heat in during winter and out during summer
- Quality hardware
- 10 Year warranty

NOTE: Standard glaze option available. Please talk to your registered Clever Living Co. builder.

GRID CONNECT

- Smart Home Automation System uses a single app to deliver home automation on your smart phone or tablet via Wi-Fi and mobile networks. It makes it possible for various electrical devices throughout the home to talk to each other, to make life easier.

LIGHTING

Dimmable LED down lights

FASTER BUILDING PROCESS

Clever Living Co. have a range of designs that come with an MBIE MultiProof approval for a faster building consent process.

Building consent in a nutshell:
having MultiProof for the design helps speed up the process

What is MultiProof?

Multiple-use approval for standardised building designs like Clever Living Co. is confirmation from the MBIE that these specific building plans and specifications comply with the New Zealand Building Code (NZBC).

How it works

Your MultiProof design is compliant with the NZBC, however you still need to apply for a building consent each time you want to build. This allows the Building Consent Authority (BCA) to confirm:

- The design, with any permitted variations, is the same as the design approved in the MultiProof
- The proposed site meets the conditions of the MultiProof
- Any site-specific features comply with the NZBC
- Which inspections are required

14.38m x 7.60m
